Function

Provide automatic feeding for high-speed machines or automatic machines. It can be used for round wire and flat wire.

Product application

It can be used for iron wire, stainless steel wire, aluminum wire, copper wire, rubber wire, etc.

Performance characteristics

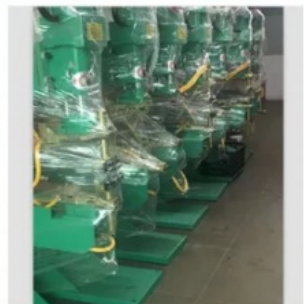

Automatic feeding, adjustable speed, heavy load.

With limit function, the machine will stop automatically if the feeding line is too much or too tight,

It can cooperate with the automatic shutdown of the main engine output, or the automatic stop of wire feeding in case of abnormality of the main engine.

The electric control box is simple and intuitive and easy to adjust.
